

Chinese Factory 4.3 inch Video Brochure LCD Greeting Card for Corporate Marketing

4.3 inch video greeting card VGC-043 from FUN Technology Limited Shenzhen China is a special card that you can upload your own video, music or photos from computer. The latest best marketing tool for all businesses in the world.

SHENZHEN, China - April 23, 2014 - [PRLog](#) -- 4.3 inch video greeting card VGC-043 from FUN Technology Limited Shenzhen China is a special card that you can upload your own video, music or photos from computer. It will play video files automatically when you open the card, and stop when you close it. VGC-043 is a very popular gift for business advertisement or holiday greetings.

Selling points:

1. First-ever video advertisement is published in a traditional paper magazine.
2. Chip technology used to store the video, as similar to that used in singing greeting cards is activated when the page is turned.
3. Video is fully chargeable and programmable via USB Cable, thus insuring an enduring marketing experience.
4. Marketing tool is proving to be very effective in its initial goal to reach the consumers effectively and directly.
5. It is a good way to make video advertisement for your products.
6. It is a good choice to send the video invitation to guests.
